

### Sprint Reflection Questions

1. What was specifically accomplished during the past sprint?
  - During the past two weeks our team has been working on AWS S3 storage, testing our site, managing our GitHub Issues, GitHub CI, and Heroku Auto-deployments.
    - Thomas has been working on Managing GitHub related things, and Heroku Auto-deployments.
    - Aditya has been working on creating tests.
    - Andrew has completed AWS S3 storage integration and anonymous reporting.
    - Zach has been working on tests, and GitHub CI.
    - Charles has been helping with tests and anonymous reporting.
2. What challenges did you encounter?
  - There were no specific challenges for testing, but we did have a little bit of trouble setting up the AWS integration.
3. Do you anticipate any specific challenges in the next sprint?
  - The next sprint will be very different since the requirements are changing, so we anticipate that there will be unforeseen challenges accompanying the changing requirements.
4. Is there anything you need from the staff right now?
  - At this stage, we are managing well with the resources and guidance provided. However, we may seek advice on balancing the project's scope with our time constraints as we further define our requirements.
